

RF Positioning Methods Comparison

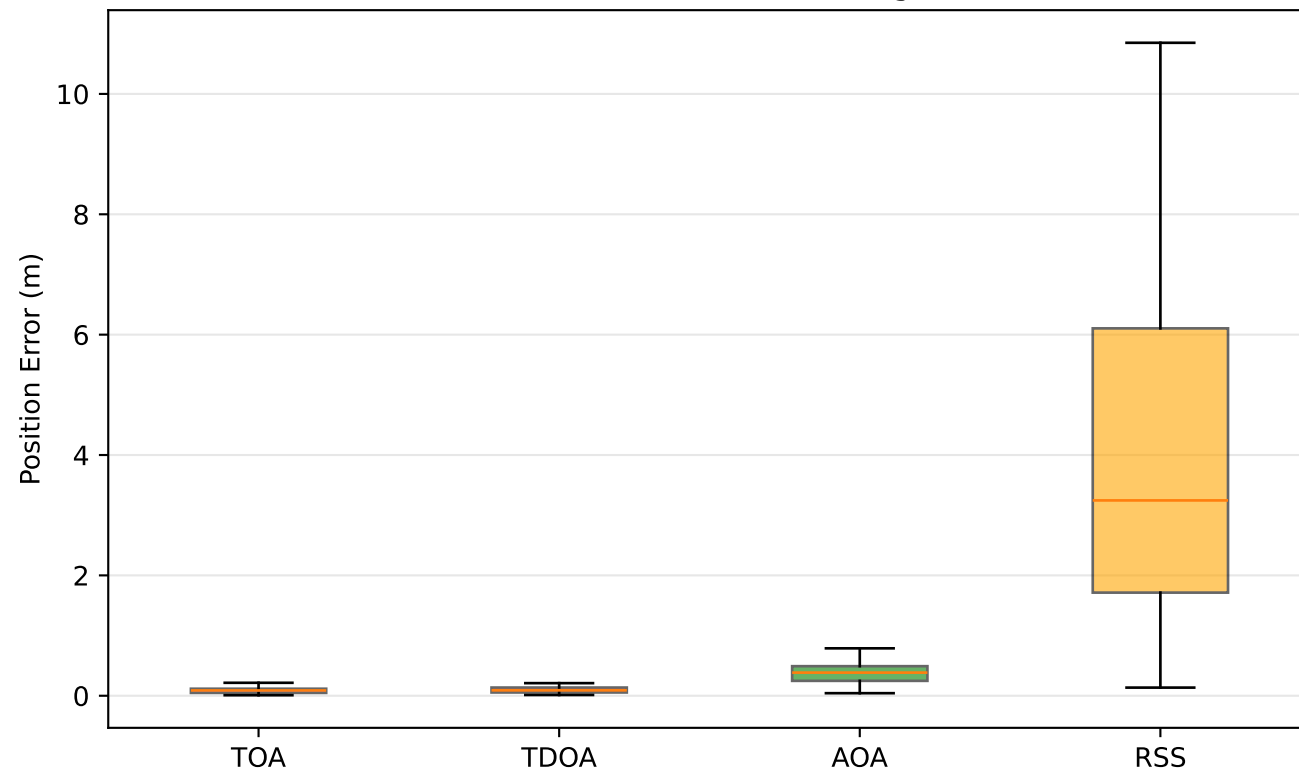

Median error vs noise level

Error CDF at level 3 (TOA 0.1 m, TDOA 0.1 m, AOA 3 deg, RSS 4 dB)

Error distribution at level 3 (TOA 0.1 m, TDOA 0.1 m, AOA 3 deg, RSS 4 dB)

Fixes solved vs noise level (raised, refused, stalled at the seed, or >100 m all count as failed)
