

Frame chain: dashed ENU reference behind each frame. ENU -> NED is a 180 deg rotation about the NE bisector $[0.707, 0.707, 0.000]$, $\det = +1$ -- handedness survives because it is a rotation.

ENU (local tangent)
East, North, Up

NED, Eq. (2.5)
North, East, Down

Body, Eqs. (2.6)/(2.7)
roll 15, pitch 10, yaw 40
